Tips for Success

SDV 100

- For in-person SDV, coming to class is imperative.
- Get started early on the modules and make a plan to finish by the due dates.
- Complete all assignments and turn them in by the due dates. This requires that students know the due dates that are on the syllabus and have a time management system that works best for them.
- Contact the instructor (or go to office hours) and/or reach out to tutors/academic coaches/advisors with questions. Ask for help!
- Participate actively in class (participate in class discussions/activities, post and respond to discussion boards, read, take notes, ask questions, attend study groups/review sessions, reach out to classmates with support/encouragement, etc.) Being successful requires action - in and out of class.
- Download the Canvas app, Google app, and set up vccs email on phones.
