Peer of the Month Shayla Givens

Shayla's Start: In 2016, while she was working as the Intake Coordinator at the Haven, Shayla joined Network2Work as a Peer. What impressed Shayla about the program was, "how [Network2work] connected with employers that paid a living wage; with the idea that Jobseekers can move up a career ladder instead of being stagnate in low paying jobs with no opportunity for advancement."

Shayla's Experience: "My experience has been great. I have been so impressed with the tool and how it really is a one stop shop. I really appreciate the Onboarding process, which I feel helps Jobseekers stay engage, and, lets them know exactly which steps they need to take to move through the program. It's easy to follow, which in turn makes it easier for the Job-seeker to actually become successful."

Shayla's Advice to Peers: "My advice would be to start slow. Enroll one or two Seekers, learn how the process works from start to finish before you take on more. Try not to be overwhelmed by all the questions in the screening tool. Its robust and meant to be comprehensive to better serve you and your seeker. That way, you do not have to go out and make those connections or referrals yourself. A little prodding goes a long way to the Job-seeker, so try and stay engaged even with a text or email, any way to keep nudging them."

Shayla's "Why?": "Having tangible resources, real jobs, and, being able to see the progress of my Seeker as he walks the pathway. But really, most of all, Network2Work has provided me with more layers of support. Whereas before, the onus was all on me as a Caseworker to do and resolve everything on my own. Network2Work has taken a lot of that pressure off, which in turn, has helped me become a better Peer to my Seekers."

Who do YOU know that would make a great Peer?
