THANK YOU LOAVES & FISHES!

Loaves & Fishes is a nonprofit business in Albemarle County that provides at least a week's worth of free groceries, including fresh produce, milk, eggs, bread, frozen meat, and healthy nonperishable food to anyone who comes for help. N2W@PVCC refers job seekers to Loaves & Fishes if they need help providing enough food each month.

Loaves & Fishes' staff and volunteers want to make sure that anyone who doesn't have enough healthy food each month knows that they can get it here!

FAREWELL TO OUR SUMMER INTERN, JACK!

My name is Jack Boswell and I am Network2Work@PVCC's new intern! I am a rising third year at The University of Virginia. I was born in Columbus, Ohio, however, at the age of nine, my family and I moved to Charlottesville and have been living here ever since. I graduated from Western Albemarle High School in 2019, and originally attended Elon University--a small private university in Elon, North Carolina--for the first year of my undergraduate education. Notwithstanding, I transferred to The University of Virginia and I am a Government Major: UVA's fancy term for domestic political-science. I have one sibling: Alex, who is a recent graduate of The University of Virginia and lives in Austin, Texas. Furthermore, my family has added a recent member: our dog Lucy. An English Springer Spaniel, Lucy is a loyal and friendly dog that loves to chew on whatever she can find.

The driving goal for both my career and life is derived from a lesson learned at a young age: leave the world better than you found it. Network2Work@PVCC provides a platform to do just that: by connecting community members with local partners to ensure that every individual can access reliable employment and pursue new, good-paying, career horizons. When I was made aware that Network2Work@PVCC would be my station for the Internship Placement Program, a UVA program that conjoins students and local employers to provide them with informative work experiences, I was exalted. I am incredibly grateful for the opportunity that Network2Work@PVCC has given me, which has supported my driving goal, and for the welcoming that each team member has given me.
